Hi, my name is Valerie Green, and I would like to followup if I may on the July 8th meeting. I still have not heard from anyone in regards to my questions about the Parole Board and their accountability. I'm still trying to understand why my brother, Ricky Foote #25593, has been continually denied parole. I understand that you are all very busy, and would probably rather put your focus on other matters that you feel are more important. I do understand that, but can you understand that my brother has spent 22 years incarcerated on a minimum 15 year sentence, he has worked very hard and used this time to make a better person of himself. So why, I ask again is he being punished for his hard work and good behavior, and who do I go to for an answer?

Thank You

Valerie Green
